

Extrusion

Die Ovens

- Safe Operation
- Precise Die Temperature Control
- Intelligent Energy Management

Billet/Log Heating

- Modular Design
- Low Energy Costs - 245 kW/Te
- Taper Heating Gradient Control

Saws and Shears

- Rapid Cycle
- Accurate Length Control
- SMART Two Part Billet Handling

Ageing Ovens:

- End/Cross Flow Variants.
- Direct and Indirect Heating
- Automated Mechanical Handling
- Gas or Electrically Powered Options
